CECOM Leadership Changes Hands

ABERDEEN PROVING GROUND, Md. - With military precision and time-honored customs and courtesies, a transition in leadership transpired flawlessly as Maj. Gen. Randy S. Taylor ceded his position to Maj. Gen. Mitchell L. Kilgo during the U.S. Army Communications–Electronics Command change of command ceremony at the Myer Auditorium, June 20. As the CECOM commander, Kilgo also assumes the role of APG senior commander.

Field Support Helps Improve Readiness and Mobility

ABERDEEN PROVING GROUND, Md. - For U.S. Army Communications–Electronics Command, having systems that are fully mission capable is critically important for sustaining Army readiness and the ongoing mission of supporting the warfighter. Soldiers are equipped with state-of-the-art technology, but due to actively being engaged in deployment, Soldiers sometimes may lack the time to effectively maintain the equipment and fix problems when they occur or simply might need additional assistance.

Depot Maintenance Forward to Increase Readiness for Warfighters

ABERDEEN PROVING GROUND, Md. - Imagine you are an active duty satellite communications systems operator/maintainer or multichannel transmission systems operator-maintainer stationed in Yongsan, South Korea. Your system is the Satellite Transportable Terminal, or STT, the main satellite system for the entire Army Tactical Network.

Passing of the Flag, Army Depot's New Senior Leader takes Command

TOBYHANNA ARMY DEPOT, Pa. - In a time-honored tradition, Col. John McDonald assumed command of Tobyhanna Army Depot, becoming the 33rd commander during a change of command ceremony, June 17. The traditional military ceremony, which includes the passing of the depot's flag, took place before hundreds of depot employees, representatives of federal, state, and local government, and family members.

Central Technical Support Facility and the III Corps Signal Colloquy

FORT HOOD, Texas - CECOM's Central Technical Support Facility supported the III Corps Signal Colloquy professional development event, Thursday, June 13. CTSF's involvement during this event included engaging tactical, operational and strategic signal agencies and providing information with the intent to promote an understanding of signal maintenance operations across the Army.

Quarterly Awards Emphasize Notable Achievements

TOBYHANNA ARMY DEPOT, Pa. - Tobyhanna Army Depot employees use words like dynamic, committed, eager and role model to describe colleagues who are great at their jobs. Sharon Calpin and Steven Perrego were recently named Tobyhanna Army Depot Employees of the Quarter for the second quarter in the junior and senior categories, respectively.

ISEC Welcomes New Command Sergeant Major

FORT HUACHUCA, Ariz. - The U.S. Army Information Systems Engineering Command, a subordinate of the U.S. Army Communications–Electronics Command, welcomed Command Sgt. Maj. Jason D. McCoy in a ceremony on the Fort Huachuca grounds, May 21. McCoy replaces outgoing Command Sgt. Maj. Dexter M. Manning.

Why We Serve – CW4 Jamie Montgomery

ABERDEEN PROVING GROUND, Md. - Recently promoted Chief Warrant Officer 4 Jamie Montgomery, U.S. Army Communications– Electronics Command's senior military intelligence systems technical advisor and a native of Jackson, Tennessee, joined the U.S. Army in 1997 as a Strategic Intelligence Repairer or 33Y (now 35T Military Intelligence System Maintainer/Integrator).

Stock Availability Makes Life Cycle Logistics Go Around

ABERDEEN PROVING GROUND, Md. - Recently, Nicholas Basirico, Increment 2 branch chief and Joseph Baron, Increment 2 item manager, sat down to discuss the ins and outs of stock availability and how it applies to the warfighter's mission. For any Life Cycle Management Command, stock availability is paramount to the warfighter's mission and readiness.

Central Technical Support Facility Celebrates Army Birthday; Deputy Retirement

FORT HOOD, Texas - U.S. Army Communications–Electronics Command's Central Technical Support Facility campus used the 244th Army Birthday Celebration as top cover while recognizing and honoring the retirement of one of their own, Friday, June 14.
