

Tobyhanna Army Depot

ABOUT TYAD

Tobyhanna Army Depot (TYAD) is a recognized leader in providing world-class logistics support for Command, Control, Communications, Computers, Cyber, Intelligence, Surveillance, and Reconnaissance (C5ISR) systems across the Department of Defense. Tobyhanna's corporate philosophy, dedicated workforce, and electronics expertise ensure the depot is the joint C5ISR provider of choice for all branches of the armed forces and our industry partners. Tobyhanna's unparalleled capabilities include full-spectrum support for sustainment, overhaul and repair, fabrication and manufacturing, engineering design and development, systems integration, technology insertion, modification, and global field support to our warfighters.

TYAD Core Competencies

- ✓ Sustainment
- ✓ Overhaul
- ✓ System Integration
- ✓ Engineering
- ✓ Post-Production Software Support
- ✓ Depot Maintenance Forward
- ✓ Automated Test Equipment
- ✓ Foreign Military Sales
- ✓ Readiness Training
- ✓ Technical Publications
- ✓ Networking

"Best Value for the Warfighter"
Our #1 Priority is the Soldier!

TYAD DIRECTORATES

Production Management (PM)

PM oversees and performs pre-production/production planning to requisition, receive, store, and issue parts, equipment, and operating supplies.

Production Engineering (PE)

PE solves all technical issues related to the repair, overhaul, cyber and fabrication mission. PE provides engineering support through post-production software sustainment, technical documentation, test procedures, engineering analysis, site surveys, work instructions, and standard work.

C4ISR

C4ISR capabilities include sustainment, overhaul, repair, and technology insertion for radar, avionics, tactical, strategic, and secure communication systems; missile equipment; night vision and guidance control; integration, modification, and assembly of computerized equipment; emergency technical assistance; and site and total package fieldings.

Systems Integration & Support (SIS)

SIS performs electrical and mechanical fabrication, refinishing assembly, and testing of a wide variety of C5ISR systems, equipment, and associated components.

Field Logistics Support (FLS)

FLS works through a worldwide network of permanent/deployed Field Service Representatives and Field Software Engineers. FLS leverages technical and industrial capabilities to deliver a comprehensive logistics support solution for warfighters.

Resource Management (RM)

RM provides programming, budgeting, managerial accounting, management review and analysis, staffing, training, and organizational management services.

Installation Services (IS)

IS provides a safe, healthy work environment to enhance the Tobyhanna mission and provides garrison services for our military family and veteran community.
